Davao City Calinan NHS students to BBM: "Sarap tirahin sa pwet," "sana sumabog," "nagmamadali 'yan baka mabaril," "bangag..."

Nakalulungkot isipin na ang mga salitang dapat sana'y humuhubog sa pangarap ay napapalitan ng mga katagang puno ng galit at pangungutya.

Kapag ang kabataan ay natututong gawing biro ang karahasan at insulto, hindi lamang ito usapin ng asal. Isa rin itong paalala na ang kanilang naririnig, napapanood, at nakikita sa paligid ay may malaking impluwensya sa paraan ng kanilang pagsasalita.

Ang mga bata ay parang lupang mataba, kung anong binhing itinatanim, iyon din ang tutubong pananim. Kapag paggalang ang inihasik, paggalang ang aanihin. Ngunit kapag poot at panlalait ang paulit-ulit na naipapakita bilang normal, may panganib na iyon din ang kanilang tularan.

Ang tunay na tanong ay hindi lamang kung sino ang kanilang sinigawan, kundi kung anong uri ng lipunan ang unti-unti nating hinuhubog para sa sus

Ang tunay na tanong ay hindi lamang kung sino ang kanilang sinigawan, kundi kung anong uri ng lipunan ang unti-unti nating hinuhubog para sa susunod na henerasyon. Sapagkat kapag ang paggalang ay unti-unting nawawala sa wika ng kabataan, ang kinabukasan ng ating lipunan ang siyang pinakamalaking nalalagay sa panganib.

Show me your home and I will know what kind of Catholic you are.

One of the important realizations that I gained by doing house to house visit and evangelization in our community is that many are really not deep in undersranding their Catholic teachings.

The most common sign that Catholics are not really deep in their understanding of doctrine is the practice of superstitions/"pamahiin".

I saw many Catholic families keeping lucky charms at their homes: feng shui, laurel, santo niño dela suerte, etc.

This practice is clearly prohibited by our catechism because they imply lack of trust in the providence of God.

I am really convinced based on what I see whnever I visit homes that serious program of evangelization and catecheses are needed in the Catholic Church. PCP II has suggested that doing BECs is the best way to do this in the context of the Philippine Church.

ANG PIYANSA AY HINDI RESIBO NG PAGIGING INOSENTE

Walang masama sa paghingi ni Bong Revilla ng piyansa. Karapatan iyan ng bawat akusado—mayaman, mahirap, artista, senador, o taong walang theme song kapag pumapasok sa korte. Ang hustisyang ipinagkakait natin sa taong kinamumuhian natin ay maaari ring ipagkait bukas sa taong ipinagtatanggol natin.

Pero huwag ding gawing graduation ceremony ang paglabas sa kulungan.

Ang piyansa ay pansamantalang kalayaan habang nililitis ang kaso. Hindi ito acquittal, certificate of innocence, moral clearance, o patunay na gawa-gawa lamang ang mga alegasyon.

Sa ilalim ng Konstitusyon, maaaring hindi payagang makapagpiyansa ang isang akusado sa kasong may parusang reclusion perpetua kapag malakas ang ebidensiya ng pagkakasala. Sa bail hearing, tungkulin ng prosekusyon na ipakitang “strong” ang ebidensiya, bagaman hindi pa nito kailangang patunayan ang buong kaso beyond reasonable doubt.

Sa kaso ni Revilla, nagpasya ang Sandiganbayan Third Division, sa botong 2–1, na hindi sapat ang nailatag na ebidensiya laban sa kanya upang ipagkait ang piyansa. Kaya nakapaglagak siya ng ₱1 milyon at pansamantalang nakalaya. Samantala, tinanggihan ang bail applications ng anim niyang kapwa akusado mula sa DPWH. Nagpapatuloy ang paglilitis.

Dito nagiging legal ngunit nakakakilabot ang usapan.

Isa sa mga dahilan ng majority: nang matanggap umano ni Revilla ang mga “advance commitments” o kickbacks, galing pa raw ang pera sa mga pribadong contractor. Dahil hindi pa iyon direktang inilalabas mula sa kaban ng bayan, hindi pa raw public funds ang perang natanggap. Hindi rin daw sapat na naipakita kung paano niya ipinasok ang proyekto sa budget o kung alam niyang magkakaroon kalaunan ng malversation.

Sa papel, elegante. Sa totoong buhay, parang sinabing hindi pa nakaw sa bayan ang lagay dahil inabono muna ng contractor—kahit babawiin din umano niya ito mula sa proyektong babayaran ng bayan.

Parang may nag-abono muna sa magnanakaw, kaya technically hindi pa raw pera ng biktima ang nawawala. Kailangan lang palang lagyan ng accounting entry ang

Parang may nag-abono muna sa magnanakaw, kaya technically hindi pa raw pera ng biktima ang nawawala. Kailangan lang palang lagyan ng accounting entry ang krimen para maging komplikado.

Iyan ang panganib kapag hiniwa-hiwalay ang isang alleged corruption scheme: ang pagbigay ng pera, pagpasok ng proyekto sa budget, pagpili ng contractor, paggawa ng accomplishment reports at paglabas ng public funds ay sinusuri nang paisa-isa, pero hindi pinagdurugtong upang makita ang buong disenyo.

Dahil ang korapsyon ay bihirang dumating na may sobreng nakasulat: “Hello, public funds po ito. Paki-kupit.”

Karaniwan, dumaraan iyan sa contractor, dummy, advance commission, percentage, reimbursement, pekeng dokumento at mga taong biglang mahina ang memorya kapag nasa witness stand na.

Kung ang legal analysis ay titigil sa tanong na “Kanino nanggaling ang unang perang iniabot?” sa halip na “Bakit ito iniabot, ano ang kapalit, at saan ito babawiin?”, matatalo tayo ng mga sindikatong marunong lamang maglagay ng isang pribadong bulsa sa pagitan ng politiko at kaban ng bayan.

Ito rin ang punto ng dissent ni Justice Karl Miranda. Hindi raw maaaring ihiwalay ang alleged advance kickbacks sa mas malawak na “kalakaran,” kung saan nagbibigay muna ang contractor ng commitment sa project proponent at saka bumabawi mula sa public funds na inilaan sa proyekto.

Dito pumapasok ang mabigat na tanong: kung malakas ang ebidensiya laban sa mga opisyal na umano’y nagproseso ng ghost project, bakit biglang humihina ang koneksiyon pagdating sa makapangyarihang opisyal na umano’y nakinabang sa sistema?

Hindi ito awtomatikong patunay ng favoritism. Magkakaiba ang ebidensiya laban sa bawat akusado. Ngunit hindi rin kabastusan ang magtanong kung bakit sa corruption cases, malinaw ang paper trail sa ibaba ngunit nagiging abstract philosophy pagdating sa itaas.

Mahalagang linawin: hindi pa ito hatol na guilty si Bong Revilla. May presumption of innocence siya at karapatan niyang ipagtanggol ang sarili. Maaari pa ring mabigo ang prosekusyon sa full trial.

Ngunit hindi rin ito vindication.

Ang sinabi lamang ng majority ay hindi sapat ang ipinakitang ebidensiya sa

Ang sinabi lamang ng majority ay hindi sapat ang ipinakitang ebidensiya sa yugtong ito upang manatili siyang nakakulong habang nililitis. Ang nakuha niya ay piyansa, hindi medalya sa katapatan. Temporary liberty, hindi character certificate. Nakalabas siya ng kulungan; hindi pa siya nakalabas sa kaso.

May mabigat ding pananagutan ang Office of the Ombudsman. Kung may mga testigo, alleged deliveries, budget trail, ghost project, pekeng accomplishment reports at milyun-milyong inilabas na pondo, bakit hindi naikabit nang mas matibay ang bawat bahagi ng sinasabing sabwatan?

Sa korte, hindi sapat na alam ng publiko kung paano karaniwang gumagana ang korapsyon. Kailangang patunayan ang bawat mahalagang elemento—bawat pirma, utos, komunikasyon, delivery at perang dumaan. Hindi maaaring palitan ng outrage ang ebidensiya. Pero hindi rin dapat gamitin ang technicality para magkunwaring walang saysay ang kabuuang disenyo ng isang scheme.

Karapatan ni Bong Revilla ang piyansa. Karapatan din ng bayan ang magtanong kung bakit sa tuwing umaakyat ang kaso mula sa mga empleyado patungo sa makapangyarihang politiko, biglang nagiging malabo ang koneksiyon, mahina ang ebidensiya at “pribado” ang perang babawiin naman umano mula sa publiko.

Sa Pilipinas, tila kumpleto palagi ang papeles para maipalabas ang pera. Pero kapag panahon nang managot ang nasa itaas, biglang kulang ang dokumento, malabo ang sabwatan at walang makaalala kung sino ang nag-utos.

Mabilis ang sistema kapag pera ang palabas. Mabagal, malabo at mahiyain kapag pananagutan na ang papasok.

Photos are circulating all over social media right now showing the incredible abundance at Dolomite Beach, some harvested seashells and clams, and honestly, it brings tears of joy. So many people doubted, laughed, and ridiculed this project. Yet, it didn't just survive—it thrived. Real vision leaves a legacy. Salamat kaayo sa biyaya, ug daghang salamat, Tatay Digong!

Before interviewing someone—especially the Vice President—about a specific issue, it's the responsibility of the interviewer to provide enough context if it's clear the interviewee is unfamiliar with the particular question.

That's why may mga briefers before press conferences. This is to give everyone the necessary background and ensure informed answers.

Pero yan ang mahirap kung ang nagiinterview ay mas focused sa monetization than responsible journalism. Instead of producing substantive content, they rely on out-of-context questions and manufactured moments for clicks and views.

Proud pa. Jusko! Pataka! Bombelya!

Ruins of Nassiping Church ,Gattaran Cagayan
The ruins of the Iglesia de San Miguel Arcangel, Nassiping, Gattaran, Cagayan. The mission was elevated ecclesiastically in 1596 under the patronage of Santa Catalina Virgen y Martyr, but in 1604 this was replace by the present patron. The construction of the present church, which now lay in ruin is uncertain, but it is assumed to have been erected before the construction of the current church of Gattaran, which eventually took over Nassiping's ecclesiastical jurisdiction. The church like most built during this phase is made of brick and is assumed to have the same characteristics as the others of the period. The belfry, which stands to the church's left is characteristic of belfries of the period, made similarly of brick, it rises to a respectable height of 3 levels and topped by a pyramidal roof.

HINDI RAW VIOLENT?

Atty. Michael Poa, spokesperson of Vice President Sara Duterte's defense team, earlier claimed that Duterte "has never been violent" after reports that she allegedly threw a laptop at him.

Days later, Duterte used an example about hiring a gunman to kill a husband's mistress while discussing the country's problem with gun violence.

Gospel of the Day (Matthew 14,1-12)

Herod the tetrarch heard of the reputation of Jesus
and said to his servants, "This man is John the Baptist. He has been raised from the dead; that is why mighty powers are at work in him."
Now Herod had arrested John, bound (him), and put him in prison on account of Herodias, the wife of his brother Philip,
for John had said to him, "It is not lawful for you to have her."
Although he wanted to kill him, he feared the people, for they regarded him as a prophet.
But at a birthday celebration for Herod, the daughter of Herodias performed a dance before the guests and delighted Herod
so much that he swore to give her whatever she might ask for.
Prompted by her mother, she said, "Give me here on a platter the head of John the Baptist."
The king was distressed, but because of his oaths and the guests who were present, he ordered that it be given,
and he had John beheaded in the prison.
His head was brought in on a platter and given to the girl, who took it to her mother.
His disciples came and took away the corpse and buried him; and they went and told Jesus.

I am shocked.
The Atlantis cruise I am performing on next week has been banned from entering Turkey. A ship — a magnificent ship — full of gay men. And me. Denied entry to Turkey simply because of who is on board. I am furious, but I am sailing, as the ship will make other ports of call. I am ready to perform for all the wonderful men on this Atlantis cruise, who deserve so much better than this.

Spider-Man star Jacob Batalon has quietly tied the knot with his longtime partner Veronica Leahov!

While promoting Spider-Man: Brand New Day alongside co-stars Tom Holland and Zendaya, Batalon jokingly referred to Leahov as his "wife" during an interview, setting off excitement among fans. Fans quickly took notice of a gold band on Batalon's left hand at the film's Los Angeles premiere, while Leahov updated her professional portfolio site to read "Veronica Leahov Batalon". Congratulations to Jacob and Veronica on starting the next chapter of their lives together!

Sen Erwin Tulfo is in Naga today. We presented to him our dream of making our streets more walkable. He promised to help us get funding for the Peñafrancia Avenue Redevelopment Project. Since I started my term, his office has been helping us with social welfare funds for medical assistance, scholarships, etc.
We are very grateful.

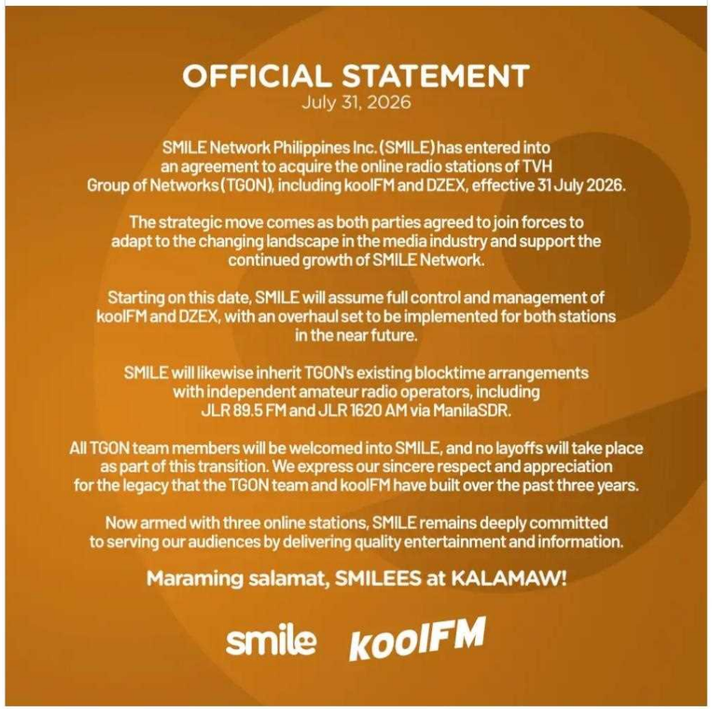
SMILE Network
18h •

Mas pinalakas at mas pinatibay ang ating pagsasama sa iisang tahanan! ... See more



OFFICIAL STATEMENT
July 31, 2026
SMILE Network Philippines Inc. (SMILE) has entered into an agreement to acquire the online radio stations of TVH Group of Networks (TGON), including kooIFM and DZEX, effective 31 July 2026.
The strategic move comes as both parties agreed to join forces to adapt to the changing landscape in the media industry and support the continued growth of SMILE Network.
Starting on this date, SMILE will assume full control and management of kooIFM and DZEX, with an overhaul set to be implemented for both stations in the near future.
SMILE will likewise inherit TGON's existing blocktime arrangements with independent amateur radio operators, including JLR 89.5 FM and JLR 1620 AM via ManilaSDR.
All TGON team members will be welcomed into SMILE, and no layoffs will take place as part of this transition. We express our sincere respect and appreciation for the legacy that the TGON team and kooIFM have built over the past three years.
Now armed with three online stations, SMILE remains deeply committed to serving our audiences by delivering quality entertainment and information.
Maraming salamat, SMILEES at KALAMAW!
smile kooIFM

Pinatawan ng Show Cause Order (SCO) ng Land Transportation Office (LTO) ang grupong content creators na pinamumunuan ng "Galawang Osas Bata" kaugnay ng mga viral na video na umano'y nagpapakita ng sinadyang pagbangga sa mga sasakyan, motorsiklo, at iba pang map4nganib na gawain sa kalsada.

Ayon sa LTO, ang naturang mga video ay nagpapakita umano ng iresponsableng pagmamaneho at posibleng paglabag sa umiiral na mga batas-trapiko na maaaring magdulot ng panganib sa publiko.

Sa isinagawang imbestigasyon, natukoy ng ahensya ang mga drayber at rehistradong may-ari ng dalawang sasakyang ginamit sa viral na content sa social media, na naging batayan sa paghahain ng Show Cause Order laban sa kanila.

Inatasan ang mga content creator na humarap sa tanggapan ng Intelligence and Investigation Division (IID) upang magsumite ng mga kinakailangang dokumento at sinumpaang salaysay, at ipaliwanag kung bakit hindi sila dapat managot sa mga paglabag na Reckless Driving at Mandatory Seat Belt Use Act.

Kasabay nito, iniutos din ng LTO ang agarang pagsuko ng driver's license ng mga drayber at ng rehistradong may-ari ng mga sasakyan. Ang kanilang mga lisensya ay sasailalim sa 90-araw na preventive suspension habang nagpapatuloy ang imbestigasyon.

SEDIMENTARY ROCKS

Sedimentary rocks are rocks formed through the accumulation, deposition, compaction and cementation of sediments, or by the precipitation of minerals from solution, or through the accumulation of organic remains. They cover approximately 75% of the Earth's continental surface, although they make up only a small percentage of the Earth's crust by volume. These rocks preserve Earth's geological history and often contain fossils, making them invaluable for interpreting past environments and life.

CLASSIFICATION OF SEDIMENTARY ROCKS
Sedimentary rocks are classified into three major groups based on their origin.

1. CLASTIC (Detrital) SEDIMENTARY ROCKS
Clastic sedimentary rocks are formed from fragments (clasts) of pre-existing rocks that have been weathered, transported, deposited, compacted and cemented together through a process known as lithification.
The grain size of clastic rocks depends on the energy of the transporting medium (water, wind or ice).

Aug 1, 2026 3:29:43 PM

Common examples include:

process known as lithification.
The grain size of clastic rocks depends on the energy of the transporting medium (water, wind or ice).

Common examples include:
• Conglomerate – composed of rounded gravel-sized fragments.

• Breccia – contains angular rock fragments.

• Sandstone – made up mainly of sand-sized quartz and feldspar grains.

• Siltstone – composed of silt-sized particles.

• Shale (Mudstone) – formed from clay-sized particles and is the most abundant sedimentary rock.

SORTING IN CLASTIC ROCKS
Sorting describes the uniformity of sediment grain sizes.

- VERY POORLY SORTED: Contains grains of many different sizes, indicating rapid deposition close to the source.

- POORLY SORTED: Wide variation in grain sizes.

- MODERATELY SORTED: Intermediate degree of uniformity.

Aug 1, 2026 3:29:49 PM

- MODERATELY SORTED: Intermediate degree of uniformity.

- WELL SORTED: Grains are nearly the same size, indicating prolonged transport and repeated reworking.

- VERY WELL SORTED: Extremely uniform grain sizes, commonly deposited by wind or waves.

Generally, sorting improves with increasing transport distance because smaller and lighter particles are separated from larger grains during transport.

2. CHEMICAL SEDIMENTARY ROCKS
Chemical sedimentary rocks form when dissolved minerals precipitate directly from water due to evaporation or chemical changes in the solution. These rocks commonly develop in lakes, shallow marine environments, caves and evaporating inland basins.

Examples include:
- Limestone (chemical limestone)
- Gypsum ($CaSO_4 \cdot 2H_2O$)
- Halite (Rock Salt, NaCl)
- Travertine
- Dolostone

TYPES OF CHEMICAL SEDIMENTARY ROCKS
Chemical sedimentary rocks can be divided into:
1. INORGANIC CHEMICAL ROCKS: Produced by direct precipitation of minerals from water.

2. BIOGENIC CHEMICAL ROCKS: Formed through the activities of living organisms that extract minerals from water to build shells or skeletons. Examples include fossiliferous limestone and chalk.

Another important variety is oolitic limestone, composed of small spherical grains (ooids) that form in warm, shallow, agitated marine environments.

3. ORGANIC (Biogenic) SEDIMENTARY ROCKS
Organic sedimentary rocks form from the accumulation of plant or animal remains. These rocks are rich in organic carbon and are important energy resources.

Examples include:
- Coal
- Chalk
- Coquina
- Some fossiliferous limestones

Aug 1, 2026 3:29:53 PM

COAL FORMATION
Coal originates from accumulated plant material buried in swampy environments. As burial depth increases, temperature and pressure transform the organic matter into progressively higher-grade coal.

The stages of coal formation are:
1. PEAT – Partially decomposed plant material with high moisture content.

2. LIGNITE – Brown coal with relatively low carbon content.

3. BITUMINOUS COAL – Black, compact coal widely used for electricity generation and industrial purposes.

4. ANTHRACITE – Highest quality coal with the greatest carbon content and energy value. It burns cleanly with little smoke.
This progressive transformation is known as coalification.

IMPORTANCE OF SEDIMENTARY ROCKS
Sedimentary rocks play a crucial role in geology and society because they:

1. Store groundwater in aquifers.

2. Serve as major reservoirs for petroleum and natural gas.

Aug 1, 2026 3:29:54 PM

3. Contain economically valuable minerals such as gypsum, phosphate and rock salt.

4. Preserve fossils that provide evidence of ancient organisms and past environments.

5. Supply construction materials including limestone, sandstone and shale.

6. Help geologists reconstruct Earth's climatic, tectonic and depositional history.

CONCLUSION
Sedimentary rocks provide essential information about Earth's surface processes, ancient environments and biological evolution. Their classification into clastic, chemical and organic groups reflects the different processes responsible for their formation.

Let's Learn Geography
by Sayantani Singh
CLASSIFICATION OF
MASS MOVEMENT
(MASS WASTING)
IN GEOMORPHOLOGY
Mass Movement (Mass Wasting) is the downslope movement of weathered rock, soil and debris under the influence of gravity, with little or no assistance from flowing water, wind or ice.
1 FALLS (Very Rapid)
Sudden free fall of rock or debris from a steep cliff.
Very steep slopes (>45°)
Fastest type of mass movement.
Forms talus (scree) slopes at the foot of cliffs.
Talus (Scree) Slope
Examples
Rockfall
Debris fall
2 TOPPLES (Rapid)
Forward rotation and overturning of rock blocks around a pivot point.
Controlled by joints and fractures.
Common on steep rocky slopes.
Examples
Rock topple
Block topple
3 SLIDES (Rapid)
Movement of rock or soil along a distinct failure surface.
(a) Rotational Slide (Slump)
Curved slip surface.
(b) Translational Slide
Planar (flat) slip surface.
Examples
Landslide
Slump
Triggered by
Heavy rainfall, Earthquakes, Volcanic activity, Undercutting by rivers or waves, Human activities
4 FLOWS (Slow to Very Rapid)
Material behaves like a viscous fluid while moving downslope.
Mudflow
Saturated fine material flows like liquid.
Debris Flow
Mixture of water, soil and rock fragments.
Earthflow
Fine-grained material moves like a slow stream.
Solifluction
Flow of water-saturated soil in periglacial regions.
Lahar
Volcanic mudflow on volcano slopes.
Water content is high. Speed varies from slow to extremely rapid.
5 CREEP (Very Slow)
Imperceptibly slow movement of soil or regolith downslope.
Slowest type of mass movement.
Examples
Soil creep
Rock creep
Frost creep

PRECAMBRIAN ERA
A Chronicle of Earth's First 4 Billion Years (4.6 Ga to 541 Ma)
The Precambrian is the earliest and longest era of Earth's history, spanning nearly 90% of geological time. JAPAN PROTECTS BUILDINGS WITH TECHNOLOGY THAT REDUCES EARTHQUAKE IMPACT

Japan uses seismic damping systems designed to reduce the impact of earthquakes on buildings. These technologies can decrease structural vibrations by 60% to 80%, depending on the design and combination of mechanisms used in each structure to absorb seismic energy.

One of the most widely used methods is base isolation, which places layers of rubber and steel between the building and the ground. This system reduces the direct transfer of ground movement into the structure during an earthquake.

Japan also uses tuned mass dampers and hydraulic or viscoelastic devices. These mechanisms absorb and dissipate the mechanical energy generated by seismic movements, helping reduce structural oscillations during earthquakes.

Aquilegia coerulea

Aquilegia is a genus of perennial flowering plants commonly known as columbines. Part of the buttercup family, *Aquilegia* contains between 70 and 400 described species and subspecies with natural ranges across the Northern Hemisphere. *Aquilegia* first evolved in Asia, with natural and introduced populations present on all continents except Antarctica. The flowers of most columbines feature nectar spurs; variation in the length of spurs, alongside other flower attributes, evolved to attract pollinators. Popular as garden plants, columbines may have first entered cultivation 1,700 years ago. Their high physical variability and ease of hybridization has resulted in the development of many cultivated varieties. Several cultures have used columbines for medicinal purposes. Columbines have also taken on symbolic connotations: the horn-like shape of the nectar spurs has resulted in associations with cuckoldry, while the species *Aquilegia coerulea (pictured)* is the state flower of Colorado. ***(Full article...)***

DID YOU KNOW?
Where Did August Get Its Name?
August was originally called **Sextilis** ("sixth month") because the early Roman ten-month calendar began with March. In 8 BC, the Roman Senate renamed Sextilis to **Augustus** to honor **Emperor Augustus Caesar**, the first Roman emperor. The month was chosen because several of Augustus's major achievements, including the conquest of Egypt, took place during Sextilis.

Four Cebu Pacific flights bound for Manila were diverted to Clark International Airport on Saturday due to bad weather conditions in Manila, the Civil Aviation Authority of the Philippines (CAAP) said.

The affected flights were CEB618 from Bohol-Panglao, CEB636 from Puerto Princesa, CEB3556 from Zamboanga, and CEB656 from Tacloban.

CAAP said the flights landed at Clark International Airport between 2:41 p.m. and 3:45 p.m. before continuing their journeys to Manila. | via Rudy Santos

EVEN DEMONS HAVE FAITH.
FAITH ALONE CANNOT SAVE.
JAMES 2:19
"You believe that God is one; you do well. Even the demons believe— and shudder."
James shows that mere belief or intellectual assent is not enough. Even demons believe true doctrine, yet they remain condemned.
Saving faith must be living faith— faith working through love.
Galatians 5:6
Faith without works is dead.
For as the body apart from the spirit is dead, so also faith apart from works is dead.
James 2:17
James concludes: "a man is justified by works and not by faith alone."

MISSING!!! 💔

He used to stay with me at my store in LRT Legarda whenever I was there or whenever the store was open. However, at the end of each day, I had to leave him behind because I couldn't bring him home yet—as we already have several cats, and I hadn't been able to take him yet to the vet for check-up.

Almost every day, I would find him patiently waiting in front of my store (as shown in the vid). The LRT staff, fellow tenants, and even some students had already gotten to know him. He had become a familiar little face around the station.

Sadly, after a weekend of heavy rain (July 25), I came back on Monday and searched for him, excited to see him again because I even bought plenty of his favorite wet food and vitamins, but he was nowhere to be found. I kept hoping he'd show up during the rest of the week, but he never did. 😢

Wherever you are, my sweet friend, I hope you're safe, loved, and in good hands. I pray that someone kind took you in and that you're now in a place where you're warm, cared for, and

SAINT ALPHONSUS LIGUORI
AUGUST 1ST
Doctor of the Church | Bishop
Founder | Zealous Preacher
St. Alphonsus Maria de Liguori (1696–1787) was an Italian Catholic Bishop, Founder of the Congregation of the Most Holy Redeemer (Redemptorists), and a Doctor of the Church.
Born into a noble family in Naples, he was a brilliant lawyer before abandoning a successful career to serve the poor and the sick.
A zealous preacher and spiritual writer, he dedicated his life to helping souls grow in faith and love for God.
He is especially known for his deep devotion to Mary Most Holy and his writings on moral theology.
"My Jesus, may my tongue be silenced if I ever forget the love You have shown me."

WNBA star Brittney Griner has filed for divorce from wife Cherelle Griner after eight years of marriage.

The Connecticut Sun player filed for divorce in the Superior Court of Fulton County, Georgia, according to court documents obtained by ABC News.

The petition states that the couple, who were married in June 2018, have been separated since July 24, 2026, and that the marriage "is irretrievably broken" with "no hope of reconciliation."

Imagine lying in bed every night, desperately wanting to sleep but your brain has permanently lost the ability to do it.
This was the horrifying reality for Silvano, one of the most famous patients with Fatal Familial Insomnia, an incredibly rare inherited prion disease.

It did not begin dramatically. At first, he simply struggled to sleep. Like many people with insomnia, he hoped it would pass. But it did not. Night after night, he slept less and less until he reached a point where he could barely sleep at all.
Doctors tried sleeping pills, sedatives, and other medications. Nothing worked. The problem was not stress or anxiety, it was that the disease was slowly destroying the thalamus, the part of the brain responsible for regulating the sleep wake cycle. Without a functioning thalamus, the brain simply could not enter normal sleep, no matter how exhausted the body became.

As the disease progressed, the lack of sleep began destroying every aspect of his life. He developed severe anxiety, panic attacks, vivid hallucinations, memory loss, confusion, and difficulty walking. He lost weight rapidly as his body metabolism became severely disrupted. As the disease progressed, the lack of sleep began destroying every aspect of his life. He developed severe anxiety, panic attacks, vivid hallucinations, memory loss, confusion, and difficulty walking. He lost weight rapidly as his body metabolism became severely disrupted. His blood pressure and heart rate became abnormal because the disease also affected the autonomic nervous system.

Eventually, his body and brain reached a point where they could no longer function. There was no cure, no treatment that could stop the disease, and no medication that could restore his ability to sleep. After months of relentless decline, Silvano died.

Fatal Familial Insomnia is one of the rarest diseases in the world, affecting only a handful of families. It is caused by a mutation in the PRNP gene, which leads to the accumulation of abnormal prion proteins that gradually destroy brain tissue. Once symptoms appear, the disease is almost always fatal.

Silvano's story is a chilling reminder that sleep is not simply rest. It is one of the most essential biological functions that keeps the brain alive. When the brain loses its ability to sleep, the consequences can be devastating.

Against Evil Eye and Evil Intentions

Lord Jesus, I come before you in faith, acknowledging the power and significance of your precious blood. I plead the covering of your blood over me and my loved ones, from the crown of our heads to the soles of our feet. By the power of your blood, I renounce every form of evil, sin, temptation, and affliction that seeks to harm us. I break off and tear down every stronghold and power of darkness. Lord, fill us with your Holy Spirit and protect us from all harm and danger.

More than thirteen centuries ago, a Byzantine emperor placed the image of Christ where rulers had traditionally placed their own.

For the first time, Christ appeared on an imperial coin as a recognizable human figure. He is shown facing forward, with long hair and a beard, a Cross behind His head, one hand raised in blessing, and the Gospel book in the other.

The placement carried a powerful message. Christ occupied the principal side of the coin, while the emperor appeared on the reverse. Justinian presented himself not as the highest authority, but as the servant and earthly representative of Jesus Christ.

Earlier Christian coins had displayed crosses, the Chi-Rho, and other sacred symbols. This solidus went further by openly presenting Christ Himself as the true ruler above every earthly emperor.

More than thirteen centuries later, the coin still proclaims the same truth:

Jesus Christ is King.

HUMIHINGI NG DASAL SI SOLOMON OBINNA OKEREKE PARA SA PAMILYA NI DIVINE

Nanawagan ng panalangin si Solomon Obinna Okereke matapos ang mabigat na pagsubok na kinakaharap ng pamilya ni Divine.

Ayon kay Okereke, kasalukuyang may karamdaman at naka-admit sa ospital ang ina ni Divine at ang kanyang nakababatang kapatid. Dagdag pa niya, labis ang epekto ng pagkawala ni Divine sa kanyang pamilya, lalo na sa kanyang kapatid na bagong graduate at maraming pangarap na kasama ang kanyang kuya.

Hinihiling ni Okereke ang patuloy na dasal para sa healing, lakas, at comfort ng pamilya sa gitna ng kanilang pinagdaraanan.

Divine's mom and Divine's younger sister are seriously ill and have been admitted to the hospital. This is an incredibly difficult time for their family, and they truly need our prayers.

His younger sister, who recently graduated, has been in deep shock since losing her elder brother. Divine had so many dreams and promises for her, which makes this loss even more heartbreaking.

Divine's family is not the type to ask people for help, even during difficult times. That is why I have decided to take this upon myself. If anyone would like to directly support Divine's family, please feel free to reach out to me. Every prayer and every act of kindness means so much.

Saint Thomas Aquinas (1225–1274), the "Angelic Doctor," remains one of the greatest theologians and philosophers in Church history. A Dominican friar, he worked tirelessly to unite faith and reason. His monumental Summa Theologica is a systematic masterpiece that still guides Catholic doctrine and Western thought today.

On December 6, 1273, while celebrating Mass in the chapel of St. Nicholas in Naples, Thomas experienced a powerful mystical vision of divine truth. Many said that Jesus appeared to him and opened his soul to eternal realities. The encounter was so overwhelming that he was profoundly changed.

From that day forward, he laid down his pen and refused to write or dictate any more. When his devoted secretary and friend, Brother Reginald of Piperno, urged him to continue the Summa Theologica (which was nearing completion), Saint Thomas humbly replied:

"I can do no more. All that I have written seems to me like so much straw compared with what I have seen and what has been revealed to me."

He set aside his writing materials. Some traditions say he even desired to burn his works, reflecting his deep awareness of the limits of human words before the mystery of God. Yet he did not destroy what he had already written.

Thankfully, his companions—especially Brother Reginald and the Dominican friars—recognized the immense value of what he had produced. They carefully preserved and shared his manuscripts. After Thomas's death just three months later on March 7, 1274, they completed the Summa Theologica by adding a Supplement drawn from his earlier writings.

This moving story teaches us a beautiful truth: even the greatest human intellect and theological achievements are as "straw" compared to a direct encounter with the living God.

May we, like St. Thomas, seek not only to know about God, but to encounter Him with all our hearts.

Saint Thomas Aquinas, pray for us!

145 days left before Christmas
Nakaka-miss ang Pasko ng 2010. 🎅✨

napaka nostalgic ng year na to madaming pangyayari na hindi natin malilimutan ❤️

While my power as president ends in 1992, my responsibility as a Filipino for the well-being of my country goes beyond it to my grave.
A great part of that responsibility is to do the best I can today, according to my best lights, while I have the power to do it.

With love, we remember President Cory on her 17th Death Anniversary. As we honor her life and legacy, may we always remember that our responsibility to our country is a lifelong calling-it extends far beyond the positions we hold.

GUSTONG HUMINGI NG TAWAD SA TVJ

Actor Anjo Yllana said he was unable to personally apologize to "Eat Bulaga" hosts Tito Sotto, Vic Sotto and Joey de Leon after they did not cross paths during a court hearing involving the P3.5-million damages case filed against him.

Check comments for the story.

Anjo Yllana still wants to personally apologize to TVJ
